

Maintaining profitable farming systems with retained stubble in the Riverine Plains

The project has established four focus farms with large, commercial scale trials to compare a range of stubble management options, with supporting small scale trials which focus on specific issues such as row spacing and cultivar selection, N timing and disease management.

On-farm focus groups – retained stubble

The final series of paddock walks for this project will focus on disease status and nitrogen response under the various stubble management options. We will also be discussing the seasonal conditions, soil moisture and frost risk.

Speakers will include Michael Straight (FAR Australia) and Cassandra Scheffe (Riverine Plains Inc).

The Paddock Walks will be held at:

COREEN – TUESDAY 10 OCTOBER 2017

10am – 12noon at Tomlinson Ag's property, Emu Park Rd (gate is on the western side of the channel, between Minns and Straherne Roads), Coreen.

HENTY – TUESDAY 10 OCTOBER 2017

2.00pm – 4.00pm at Peter Campbell's property. Meet at the sheds, 452 Henty-Pleasant Hills Road, Henty ("Avondale" on the mailbox).

YARRAWONGA – WEDNESDAY 11 OCTOBER 2017

10.00am – 12noon at Telewonga Ptd Ltd, 292 Reillys Road, Yarrawonga.

DOOKIE – WEDNESDAY 11 OCTOBER 2017

1.30pm – 3.30pm at the Ludeman Brothers property, Dookie-Devenish Road (gate is between Dookie-Nalinga Road and Proctors Road), Dookie.

All are welcome to attend these free events which are being held as part of the GRDC investment *Maintaining profitable farming systems with retained stubble in the Riverine Plains region*.
