*This field day is part of the Improving Soil to Optimise Water Use On Farm project, funded by the Australian Government through the Future Drought Fund Natural Resource Management Drought Resilience Program. It aims to address soil quality parameters and how these are linked to storing more rainfall for crop production.*

### Workshop Program

- Farmer experience of soil mapping - Mark Harmer, Dookie.
- Soil Mapping case study - Lee Menhenett, Murchison and Ben Fleay, Precision Agriculture.

### Virtual Field walk Program

- Site 1 Chinaman's Hill Rd, Murchison (Lee Menhenett's paddock)
- Sites 2 & 3 Carters Rd, Miepoll (Paul & Mel Brown's and Andrew Kelly's paddocks)

Field walk topics and speakers will include;

- Soil Amelioration options: Simon Falkiner, Falkiner Ag
- Managing acid and poorly structured soils: Cassandra Schefe, AgriSci,
