

# Pulse Field Day: Friday 8<sup>th</sup> October 2021

10am – 12noon “Stratherne”, 781 Emu Park Rd, Coreen

This is an opportunity for you to join us to take a look at the trials which are part of the GRDC investment NSW Pulse Agronomy Project which aims to close the economic yield gap and maximise farming systems benefits from grain legume production in NSW.

Rohan Brill of Brill Ag will be joined by Tom Price and Ben Morris of FAR Australia to guide you through the faba bean, vetch and chickpea trials, providing you with some background and what they are aiming to achieve.

## **Topics to be covered include:**

- Disease management in faba beans - are there more sustainable ways to control disease in faba beans?
- Nutrition and biomass production in faba beans and vetch - how can we maximize pulse nutrition and biomass production?
- Acid soil Management - what is required to maximise pulse production?

**Due to current COVID-19 restrictions, please register your attendance with Rachel Hamilton, event coordinator
