

Pulse Field Day: Friday 8th October 2021

2pm – 4pm Corner Lanes Rd and Geodetic Rd, Bundalong

This is an opportunity for you to join us to take a look at the trials which are part of the GRDC investment Victoria Pulse Agronomy Project which aims to close the economic yield gap and maximise farming systems benefits from grain legume production in Victoria.

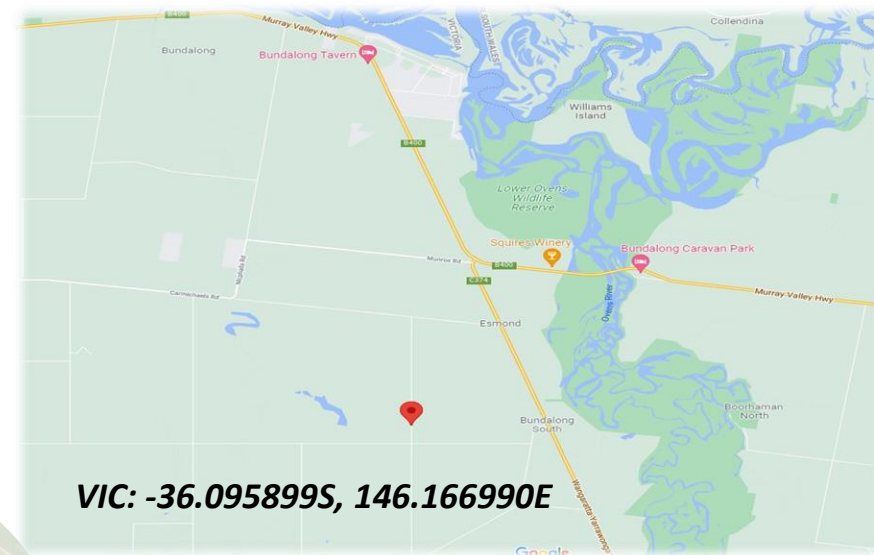

Dr Kenton Porker, FAR Australia's Research Director will be joined by colleague Ben Morris to guide you through the faba bean work, providing background on the trials and what they are aiming to achieve.

Bill Slattery, Soil Scientist will also join us to talk about acid soils.

Topics to be covered include:

- Disease management in faba beans - are there more sustainable ways to control disease in faba beans?
- Nutrition and biomass production in faba beans - how can we maximize pulse nutrition and biomass production?
- Acid soil Management - what is required to maximise pulse production?

**Due to current COVID-19 restrictions, please register your attendance with Rachel Hamilton, event coordinator
Email rachel.hamilton@faraustralia.com.au. Ph: 0428 843 456**

This field walk is supported by the North-East CMA through funding provided by the Australian Government's National Landcare Program.

DUE TO CURRENT COVID-19 RESTRICTIONS, NUMBERS ARE LIMITED AND REGISTRATION IS COMPULSORY. IF YOU ARE NOT REGISTERED, YOU WILL UNFORTUNATELY BE TURNED AWAY. REGISTRATION IS OPEN TO RESIDENTS OF VIC ONLY. FIRST COME FIRST SERVED. APOLOGIES IF NUMBERS PRECLUDE ENTRY ON THIS OCCASION. WE APPRECIATE YOUR UNDERSTANDING.
