[Click here to Register](#)

The Evan Moll Gerogery Field Day returns for 2021 - join us for a tour through the wheat and canola NVT trials, discussions on the Gerogery Hyper Yielding Crops project trial, as well as how to better prepare for drought.

## Program

8:30-9am: Registration (includes check-in, evidence of vaccination)

9-11:10am Paddock Session

- Wheat - NVT trials and varieties:  
*Peter Matthews, NSW DPI*
- Canola NVT trials and varieties:  
*Don McCaffery, NSW DPI*
- Hyper Yielding Crops - Gerogery demonstration site & project update: *Kate Coffey, Riverine Plains*

11:10am-1:10pm Shed Session

- NSW Drought Hub: *Catherine Marriott, Riverine Plains*
- Drought preparedness - planning ahead for drought: *Riverine Plains*

A free BBQ lunch will be provided by the Foundation for Rural & Regional Renewal, through the Enhancing Community Networks for Drought Resilience in the Riverine Plains project, in conjunction with Seed Force.

This COVID-safe event will be held according to current NSW State Government regulations. Attendees will be required to check-in and show proof of vaccination. Registration is essential and RSVP's are required by Wednesday 10 November, 2021 via the link at <https://riverineplains.org.au/the-ewan-moll-gerogery-field-day-2021/>. For further information, please email [events@riverineplains.org.au](mailto:events@riverineplains.org.au) or phone Riverine Plains on (03) 5744 1713.

*The Enhancing Community Networks for Drought Resilience in the Riverine Plains project is funded by the Foundation for Rural & Regional Renewal through the Networks to Build Drought Resilience Program and donors the Australian Government's Future Drought Fund and the Pratt Foundation.*
